

YOU TOO
COMMIT YOURSELF NOW!

READ THE “YOU-TOO” DECLARATION:

COMMIT YOURSELF NOW!

The more human society endorses principles that are self-evident, the more it admits its failure to deserve to be called "human".

The events happening in Greece during these last months that negate the human condition of women must stop once and for all. It must stop now!

The only way is for the society to defend her human condition: she surpasses herself in order to climb steps with dignity, to be justified, to give life and to shape citizens who will progress in conditions of equal rights and equal opportunities.

A mother, a worker, a breadwinner, a scientist, a manager or a leader in the field she has chosen or in the field that has chosen her, a fellow life companion, a pragmatist but also an everyday fighter, she risks her life, her physical integrity, her honor and her reputation as if we had not entered the third decade of the 21st century.

She deserves recognition. For this to happen, she is entitled to defend her self-evident rights, which the institutions, but also of society as a whole are bound to respect and ensure.

Act now and do what you owe to your human condition, which you owe to a woman.

YOU TOO commit now to what you will do and publicly confront with your commitments in March 2023.

The clock is already ticking and 2022 must be a more reasonable, just and humane year than the inhuman one we experienced in 2021.
